

QUALITY ★★★★★

Crystal Wire T15

Loudspeaker cable, 2x1.5 mm², with tube connector

Excellently made stereo loudspeaker cable for connecting amplifiers and power amplifiers to loudspeaker boxes. Preassembled with tube connectors, this loudspeaker cable is suitable for amplifier performances of up to around 90 watts of power per amplifier channel. The cable has been made with thin stranded copper wires (0.125 mm) which means that it is very flexible and highly conductive. The use of oxygen-free copper (OFC) for the inner conductor also ensures that an extremely clear and true-to-life sound can be achieved with this loudspeaker cable.

Features

- ✓ OFC – oxygene free copper
- ✓ Stereo speaker cable
- ✓ For amplifier performances of up to 90 watts

Technical Data

Cable cross-section	2 x 1.5 mm ²
Inner conductor material	OFC – oxygene free copper
Cable geometry	Flat
Plug type	Straight

Designation	Art. No.	Unit	Colour
Crystal Wire T15 / 250	10770	2.5 m	Clear
Crystal Wire T15 / 500	10771	5 m	Clear
Crystal Wire T15 / 1000	10772	10 m	Clear

90 W
