

QUALITY ★★ ★

Crystal Wire T25

Loudspeaker cable, 2x2.5 mm², with tube connector

Excellently made stereo loudspeaker cable for connecting amplifiers and power amplifiers to loudspeaker boxes. Preassembled with tube connectors, this loudspeaker cable is suitable for amplifier performances of up to around 140 watts of power per amplifier channel. The cable has been made with thin stranded copper wires (0.125 mm) which means that it is very flexible and highly conductive. The use of oxygen-free copper (OFC) for the inner conductor also ensures that an extremely clear and true-to-life sound can be achieved with this loudspeaker cable.

Features

- ✓ For amplifier performances of up to 140 watts
- ✓ separate stranded copper strings
- ✓ OFC – oxygen free copper
- ✓ Stereo speaker cable

Technical Data

Cable cross-section	2 x 2.5 mm ²
Cable geometry	Flat
Plug type	Straight

Designation	Art. No.	Unit	Colour
