LF audio RCA cable, symmetric layout

Extremely well-made analogue audio cinch cable for cabling hi-fi and home-cinema systems! The symmetrical design and the particularly high-quality inner conductor made from oxygen-free copper (OFC) mean the true-to-life transmission of signals can be achieved with this Oehlbach cable. Perfect contact reliability and a pleasant handling are guaranteed with the 24-carat gold-plated contacts. The cable may be used universally and is absolutely resistant to all sheath currents thanks to its extremely robust and flexible outer sheath. It impresses with its warm and fine silk-like sound that is accompanied by very good spatiality and powerful basses.
