

QUALITY ★★★★★

Silverline SP-25

Loudspeaker cable, silver-plated, 2x2.5mm², mini coil

Excellently made stereo loudspeaker cable wound on to a mini coil. This loudspeaker cable is suitable for amplifier performances of up to around 120 watts of power per amplifier channel. The use of silver-plated oxygen-free copper (OFC) as the conducting material ensures that an extremely clear and true-to-life sound can be achieved with this loudspeaker cable. The use of silver to refine this cable helps further improve the reproduction of trebles. The cable has also been made from very many ultrathin stranded copper wires – each individual wire possesses a cross-section of around 0.125 mm. This complex design means that the cable is particularly conductive and flexible throughout.

Features

- ✓ Made in Switzerland
- ✓ Stereo speaker cable
- ✓ For amplifier performances of up to 120 watts
- ✓ SPC - silver-plated copper
- ✓ Ultra-thin individual wires
- ✓ highly flexible cable

Technical Data

Cable cross-section 2 x 2.5 mm²
 Cable geometry Flat
