XXL® Fusion Four B

High-end bi-wiring loudspeaker cable with banana connector

This extra-class bi-wiring loudspeaker cable preassembled with „Fusion“ banana plugs continues to set standards for high-fidelity sound. This cable has been specially designed with hi-fi purists in mind and it offers a sophisticated technical concept in addition to a particularly discrete product design. The material used for the inner conductor consists of high-purity, oxygen-free HPOCC copper. Monocrystalline-like transitions are achieved within the copper thanks to the unique HPOCC manufacturing process applied. The cable has been structured to rigorously separate the treble and bass transmission routes and thus achieves a unique quality of transmission. Each of the twelve individually insulated copper wires has been wrapped in wafer-thin copper foil. This unique concept in cable construction requires a tremendous degree of precision in the manufacturing process with the main aim of achieving a time delay correction between the high and low frequencies. The low frequencies prefer the more solid inner conductor while the high frequencies tend to move along the surface at greater speeds. The combination of the inner conductor and foil results in an unprecedented natural and dynamic sound.

Features

- ✓ Made in Germany
- ✓ Individually insulated copper wires
- ✓ Bi-Wiring
- ✓ Rigorous separation of signal routes
- ✓ High-quality fabric sheathing
- ✓ Solid full-metal plug
- ✓ 24 ct gold plated plug
- ✓ HPOCC® - monocrystalline copper
- ✓ For powerful bass reproduction
- ✓ Stereo speaker cable

Designation	Art. No.	Unit	Colour
Fusion Four B 200	14223	2 m	black
Fusion Four B 250	14224	2.5 m	black
Fusion Four B 300	14225	3 m	black

Technical Data

Inner conductor material	HPOCC® - monocrystalline copper
Cable sheathing	fabric sheath
Cable geometry	Round
Concept	Bi-Wiring
Special length	Made-to-order lengths configuration possible as per your request
Plug type	Angled
